**\*\*Join the RV Caucus Today\*\***

Dear Colleague,

We invite you to join us in the House Recreational Vehicle (RV) Caucus. This caucus was formed to celebrate the American people's love for the outdoors and cross-country travel. For over one hundred years RVs have provided the opportunity for families to take the comfort of their homes on to the road to experience the many wonders our diverse land offers. We ask for your support so we can work together to strengthen this uniquely American industry.

The RV industry has grown from its humble beginnings to become a product embraced by families across the country that use RVs to discover the joy of outdoor vacations, tailgate at sporting events, relax at their favorite campgrounds, or explore the open road. Approximately one in twelve American households own an RV and there are more than 12,000 RV-related businesses that generate \$40 billion in annual revenue to the economy. This past year, U.S. RV manufacturers shipped more than 356,000 vehicles at a retail value topping \$13 billion. As RV ownership grows, it can be certain that domestic tourism, which helps support economic growth at the most local level, will continue to expand, providing jobs and additional economic opportunities.

The House RV Caucus will be an opportunity to celebrate this great American tradition and will provide you with industry information, news stories, and briefings throughout the year, with special educational events planned from time to time. Nearly every state in this country has RV enthusiasts, dealers, rental facilities, and campgrounds, and we hope you will join us in our efforts to strengthen this iconic part of the American economy by becoming a member of the House RV Caucus.
