

RV Standards Requirements for Canadian Provinces

Source: Government Affairs Department at RVIA, Monika Geraci - mgeraci@rvia.org

	British Columbia	Alberta	Saskatchewan	Manitoba	Ontario	Quebec	New Brunswick	Nova Scotia	Prince Edward Island	Newfoundland & Labrador
RV Standards Requirement	Z240 (motorhomes are exempt)*	Z240 or RVIA's certification process*	Z240 Or 1192	Z240*	No requirement	No requirement	Z240	Z240 (motorhomes are exempt)*	Z240 or 1192	Z240
Standards Seal Requirement QAI or CSA Z240 seal	Z240 (motorhomes are exempt)**	Z240 or RVIA's certification process*	Z240 Or 1192*	Z240*	No seal required	No seal required	No seal required*	Z240 (motorhomes are exempt)*	No seal requirement*	CSA Z240*
Propane Standard Requirement	All RVs, even motorhomes, must comply with Z240 propane standard	Z240 or RVIA's certification process*	Z240 or 1192	Z240	Technical Standards & Safety Authority (TSSA) requires all RVs to comply with CSA Z240.4.2*	No requirement	Z240	Z240 (motorhomes are exempt)*	Z240 or 1192	Z240
Electric Standard Requirement	All RVs, even motorhomes, must comply with Z240 electric standard	Z240 or RVIA's certification process*	Z240 or 1192	Z240	Electrical Safety Authority (ESA) requires all RVs to comply with CSA C22.1-09 and apply a seal showing compliance. **	No requirement	Z240	Z240 (motorhomes are exempt)*	Z240 or 1192	Z240
Notes	*Motorhomes are exempt from compliance with Z240 standard per the Motor Vehicle Act.	*Regulation reference is to RVIA's certification process, which consists of manufacturer self certification to NFPA 1192 and RVIA compliance audits.	*Must have a seal from an accredited certification organization. <i>RVIA is an accredited certification organization, according to SGI.</i>	*Alternative certification and seal are available through the Office of the Fire Commissioner (OFC) in lieu of Z240 certification and seal. RVs must still meet Z240s standard to be certified by the OFC.	*CSA Z240.4.2 is CSA's propane standard for RVs. There is no seal requirement for the propane standard. **CSA C22.1-09 and amendments issued by ESA comprise Ontario's Electrical Safety Code. Compliance seals may be issued by any accredited certification body.		*No law or regulation requires a seal, however because the RV is built to Z240, RVIA recommends putting a Z240 seal on the RV to avoid confusion.	*Z240 requirement applies only to trailers, not to motorhomes. This was confirmed by the Nova Scotia Transportation and Infrastructure Renewal. <i>Per the Atlantic RVDA, the statute is currently under review by the Registrar of Motor Vehicles and 1192 is under consideration.</i>	*No law or regulation requires a seal.	*Regulation specifically says an RV must "bear the monogram of the Canadian Standards Association Testing Laboratories." (verified 4/6/11)
