## The Economic Impact of the Recreation Vehicle Industry

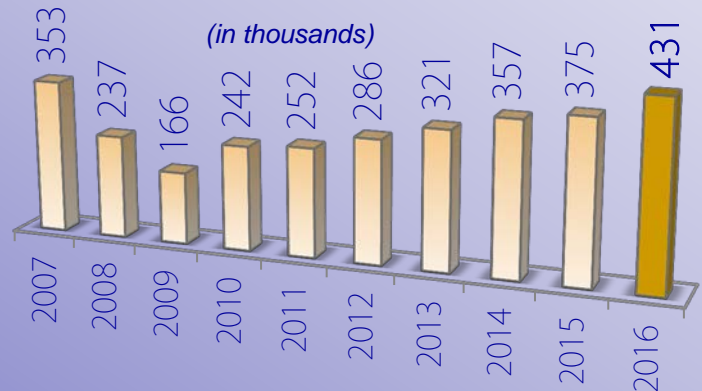

### RV Industry Impact

 The 2015 study of the economic contributions of the RV Industry is the first ever economic impact study of the RV Industry and covers all industry segments, including: RV manufacturers & suppliers, RV sales & service and RV campgrounds and travel.

 Since the release of the study, RV production increased 15% in 2016, reaching a forty-year high.

 Many RV manufacturers and suppliers are struggling to fill job openings in their plants and RV dealers are struggling to fill RV technician positions.

### Total RV Shipments

### Study Highlights

#### Direct Impact

- **155,000** Jobs
- **\$8 Billion** in Wages
- **\$27 Billion** in Economic Output

#### Overall Impact

- **290,000** Jobs
- **\$16 Billion** in Wages
- **\$50 Billion** in Economic Output
