

2018 AFTERMARKET EXECUTIVE CONFERENCE

AUGUST 13-16, BONITA SPRINGS, FL

PRODUCT OF THE YEAR SUBMISSIONS

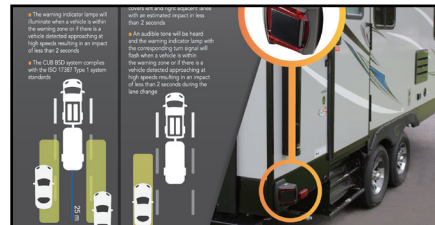

TRAILER VALET: RVR9

The Trailer Valet is a fully remote controlled RV mover, which allows you to park your RV into tight spaces without the use of a spotter.

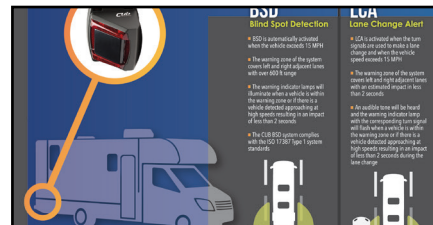

THETFORD CORPORATION: NORCOLD POLAR 7LX GAS ABSORPTION REFRIGERATOR

New, state of the art technology allows Norcold to increase storage space to its already industry-leading 6-foot capacity class. Effectively allows RVers to have seven cubic foot of storage space in a six-foot cutout. The 7LX also features an upgraded appearance with enhanced/modern styling and a new LX Series, true-eye-level Control Panel that's easy to see and operate and has an LCD Display, adjustable thermostat and mode select. Made in America by an American-owned Company.

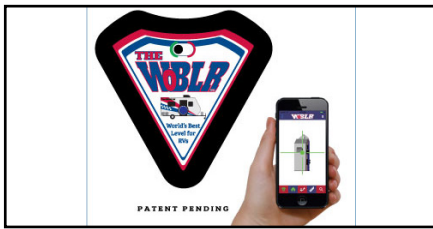

NOVUS RADAR TECHNOLOGIES: CUB BLIND SPOT DETECTION SYSTEM FOR TOWABLES

Cub's Blind Spot Detection System for Towables utilizes 24GHz radar technology for Blind Spot Detection & Lane Change Alert. BSD is activated when vehicle exceeds 15 MPH and the LCA is activated when turn signals are used while the vehicle exceeds 15 MPH. The driver is notified with warning indicator lamps and an audible tone. System is compatible with nearly any type of trailer including fifth wheels and easily mounts on rear of trailer exterior.

NOVUS RADAR TECHNOLOGIES: CUB BLIND SPOT DETECTION SYSTEM FOR MOTORHOMES

Cub's Blind Spot Detection System for Motorhomes utilizes 24GHz radar technology for Blind Spot Detection & Lane Change Alert. BSD is activated when vehicle exceeds 15 MPH and the LCA is activated when turn signals are used while the vehicle exceeds 15 MPH. The driver is notified with warning indicator lamps and an audible tone. System is compatible with nearly any type of trailer including fifth wheels and easily mounts on rear of coach exterior.

RV INTELLIGENCE: WOBLR “WORLD’S BEST LEVEL FOR RVs”

Leveling your RV, camper, or motorhome is easier and faster with the RV Intelligence WoBLR™ RV Level measuring tool with Smart App for Apple and Android. The WoBLR, “World’s Best Level for RVs”; an RV bubble level tool with App display that enables you to see exact level of an RV. The free RVIQWoBLR app, available for both Android and Apple. Connect to your WoBLR and use your smart device to guide you to level!

PREST-O-FIT MANUFACTURING: RUGGIDS UNIVERSAL RV STEP RUG

Ruggids Universal RV Step Rugs (22 inches wide) fit most straight and curved steps that are 24 inches wide! Features deep tread that traps dirt at the door. These step rugs are easy to install with included springs and hook-and-loop fastening strips fitting manual and electric steps. UV-protected against sun damage and fading and resistant to mold and mildew. These step rugs are easy to clean, simply hose off and dry. Made in the U.S.A.

MINDER DIVISION OF VALTERRA PRODUCTS: HOMEMINDER PET MONITORING

Monitor your pets with the new HomeMinder Remote Video and Temperature Monitoring System! This system allows your customers to remotely monitor the temperature inside their RV while away. With programmable temperature alerts, simply set a high and low point. If that point is reached or surpassed, the free HomeMinder app will immediately send an alert to your smartphone. Programmable motion alerts are also included. A smartphone and Wi-Fi connection are required.

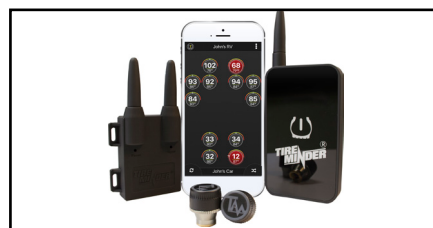

CAREFREE OF COLORADO: 13 OZ NO FRAY CUT-TO-FIT SLIDEOUT REPLACEMENT FABRIC WITH NEW DISPENSER BOX

Replace your customer’s slideout awnings faster and easier than ever before! Carefree’s brand new, no-fray cut-to-fit slideout replacement fabric and convenient dispenser box provides efficiency and economy to your replacement fabric offering. The proprietary 13oz. composite fabric prevents fraying when cut and features welded polycords for easy installation. The fabric dispenser box provides storage and simplifies the cutting/dispersing process. Available in 100’ continuous Black, White or Gray rolls that work on all brand slideout awnings.

SOUTHWIRE COMPANY: SURGE GUARD 34950 PORTABLE WITH RV SIDE OPEN NEUTRAL PROTECTION

The new Surge Guard portable 34950 provides exclusive Patent Pending load side protection from Open Neutral faults, offering the highest level of electrical protection available today. Until this point, electrical protection devices only had the capability to detect electrical faults at the pedestal or before, however the 34950 now detects electrical faults on the output side of the device. This technology eliminates costly damage to the RV due to open neutral faults inside of the RV.

MINDER DIVISION OF VALTERRA PRODUCTS: TIREMINDER SMART TPMS

The TireMinder Smart TPMS includes the newly updated TireMinder TPMS 2.0 app update. This update brings several exciting new features, including the ability to display each tire’s pressure and temperature simultaneously, adding/ swapping between multiple vehicles, an improved step-by-step setup process, voice alerts w/push notifications, and multiple other features making the TireMinder Smart TPMS the easiest-to-use and most advanced RV TPMS in the industry.

AP PRODUCTS: RV VENT SHADE

Mylar backed shade blocks most light from crank vents. The RV Vent Shade simply installs over current trim with existing screws and conforms to curved ceilings without modification. Reduces heat and easily retracts to allow natural light in.

VELVAC, INC: HYPERION BLIND SPOT DETECTION SYSTEM

Velvac's Hyperion Blind Spot Detection is the industry's first smart, camera-based dual object detection system, combining lane change assistance and blind spot detection utilizing high resolution cameras within Velvac mirrors. Using sophisticated algorithms, Hyperion's intelligent detection technology monitors and alerts drivers via a visual blind spot icon in the mirror glass, with greater accuracy than radar systems. Hyperion will also provide drivers an additional visual in the monitor displaying the adjacent lane, eliminating the blind spot.

WINEGARD COMPANY: CONNECT 2.0 WIFI AND 4G RANGE EXTENDER

The new Winegard Connect 2.0 is an integrated system that works together for faster speeds and increased range from WiFi/4G sources. Keep devices connected with a reliable connection and expanded coverage. The Connect can link to nationwide 4G LTE for reliable, uninterrupted, in-motion and stationary coverage while traveling and offers the capability to swap SIM cards to use data plans from other carriers, or Winegard's full-speed, no-throttling data plans.

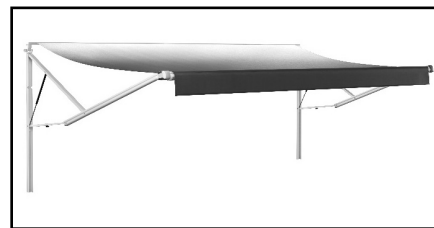

WINEGARD COMPANY: DISH PLAYMAKER WITH DISH WALLY RECEIVER BUNDLE

The DISH Playmaker with DISH Wally receiver makes receiving DISH HD programming simple and easy while offering excellent performance at a great price point. The re-engineered platform offers more performance and flexibility to mobile TV viewers while retaining the user-friendly operation of DISH's mobile protocol setup wizard. Improvements include a redesigned reflector that can add up to 20% increase in signal strength and the ability to permanently mount to a RV roof with accessory kit.

LIPPERT: FLOW-MAX FRESH WATER PUMP

Average 3.20 gallons per minute GPM flow vs. 2.36 GPM Competition Average leading pressure of 45 psi vs. 42 psi Competition Freeze/thaw tested up to five 2 hour cycles vs. 1 cycle failed Competition 2 year limited warranty Connectors and Strainer are standard in the box 12 VDC, 6.0 max amps Self Priming NSF & CSA Certified Fits any OEM pump Pump can run dry without incurring damage Corrosion resistant motor

DOMETIC: 9200 SERIES POWER AWNING

The Dometic 9200 Series Power Awning provides simple operation, smart design and patent pending, tool-less assembly of arm hardware to the fabric roller tube assembly. Dometic offers an optional PowerChannel Accessory Rail, allowing for easy attachment of optional accessories, such as a fan, USB charger, speakers and LED lights, without the mess of cords. Dometic is a proven leader in the industry and implements rigorous cycle, and environmental testing to deliver durable and dependable awnings.

CAFRAMO: SIROCCO II

The all new Sirocco II cabin fan is made in Canada and features a unique gimballed design that allows 360° airflow with versatile 12/24 Volt auto-sensing capability. The unique four preset timer settings (3/6/9/12 hours), low power draw (up to .35 amps) and whisper quiet operation make the Sirocco II the perfect choice for RV'ing in comfort.
